Storyboard

SIL 503 Week 8 lab sheet, 28 October 2026

Every panel with a real, identifiable person needs a consent note with a name and a date on it. The last two columns are filled at the same time as the shots, because both cost less here than at export.

Name | **Working title** | **Sheet** | **Of**

Panel *number, and the seconds it takes*	**Visual** *the shot, and anything on screen*	**Audio and voiceover** *the words, and the sound under them*	**Consent notes** *a name and a date for every identifiable person*	**Accessibility notes** *contrast, on-screen text, and the overlap between narration and picture*

Source: Columns from the project storyboard template; the accessibility column from the media accessibility check on the course site.
